

SCOPE Training

SCOPE training provides an overview of several topics that apply to all first responders when assisting patients or community members with SUD:

- Understanding SUD as a disease.
- How trauma-informed care, including an understanding of adverse childhood experiences (ACEs), can lead to better patient outcomes.
- Naloxone administration and practices for naloxone left behind for family and friends of those with SUD.
- How to be part of a recovery-oriented system of care by making a referral to local drug and alcohol services.
- The importance of destigmatizing language and behavior as well as empathy for survivors.

Join us at Ferrante's Lakeview in Greensburg on October 29th. This training will be **FREE** and includes 4 CEU's in celebration of National First Responders' Day (October 28th). Buffet style lunch will be provided.

This training will include:

- 9AM - Opening Speaker
- 10AM - 12PM - Training
- 12PM - 1PM - Buffet Lunch
- 1 PM - Guest Speaker
- 1:30PM - Speaker (Overdose Survivor)
- 2PM - 4PM - Training
